MATCHBOOK · WEEK 5 · NOVEMBER 2–6, 2026

Respect and Responsibility

Four school days (no school Tuesday, November 3). Respect you can see and responsibility you can count on, in every space at school.

Week 5 · Teacher delivery guide

November 2–6, 2026 has four school days: Monday, Wednesday, Thursday, and Friday. There is no school for students on Tuesday, November 3, so Tuesday's Picture of the Day does not run this week. Morning Spark and Ember carry the same through-line as Morning Meeting: respect and responsibility. Spark keeps its fixed format rotation: Monday Check-In, Wednesday Zoom In, Thursday Would You Rather, and Friday Wonder, followed by the Time for Friday Cypher slide.

Spark leads straight into Morning Meeting

Monday, Wednesday, and Thursday Spark end on a hand-off slide that names that day's Morning Meeting lesson (Respect Is Something You Do, Own It, Fix It, and Respect and Responsibility Everywhere) with a button that opens your band's Morning Meeting deck. Grades 2–3 rooms see two buttons: grade 2 uses the K–2 lesson and grade 3 uses the 3–5 lesson.

Preserve the daily routines

Arrival at 7:15. Spark is a 3–5 minute independent task; then K–2 read and grades 3–8 use IXL. In the 2–3 deck, grade 2 reads and grade 3 uses IXL. The day's IXL codes are on the slide, top right, from IXL Week 10 (November 2–6). Announcements are around 7:37, followed by a reveal of two minutes or less. Morning Meeting starts at 7:45; on Friday, advance to Time for Friday Cypher and students report to the hallway once the announcement is made.

Use day keys 1–4 (Mon, Wed, Thu, Fri), arrows, bilingual read aloud, Repeat aloud for late arrivals, and Week view. Wednesday's reveal zooms out before the answer appears; reduced-motion mode reveals immediately. Thursday votes start at zero; explanations matter more than vote totals.

The week's through-line: a bar a day

Every reveal ends with a Chant of the Day (K–3) or Bar of the Day (4–8) on the day's focus. Read it once, have the class echo it, and post it by the door. On Friday, the four lines become the class's set for Friday Cypher. The scenes are set in places students know: arrival at Room 63, the lunch table, the hallway line, the LiveSchool Store (open November 4–6), Hallway Hollers, and the Cypher circle.

Ember videos feature characters and voices students see themselves in: Sesame Street and Plaza Sésamo (including Spanish-language calm-downs) for K–3, and pep talks and mindfulness practices from Kid President, LeBron James, Dora Kamau, and Naomi Osaka for 4–8. Preview each clip before 2:05; if YouTube is blocked, the board switches to the breathing circle.

Ember: 2:05 seated pack-up, 2:08 watch and settle, 2:13 reflect, then seated waiting. Keep the existing release order and times on the rail. Chromebook stays closed on the desk until the group is called; return it to the numbered

slot, then leave. No lining up. Use the board's breathing fallback if streaming fails.

Equity sticks, talk moves, and LiveSchool

Every reveal follows Show, Think (ten silent seconds), Call (one or two equity sticks), Talk (30-second turn and talk if time allows). The daily keys below give the exact cold-call question and stem for each band. Talk moves: "Say more." "Who can add on?" "What did your partner say?" This is LiveSchool Store week: award points during the work period for the respectful and responsible choices students name, said out loud: "Respectful: Amara let her partner finish before she spoke." "Responsible: Dante cleaned his spot without a reminder." Never award points for being quiet or finishing first.

Respect and privacy

Monday check-in slips stay private; the counselor collects them by 10:00 a.m. Feelings and readiness are information, not behavior grades. All week, students talk about their own choices or the examples on the slides, never a classmate's behavior. If a student names a classmate, redirect in one calm sentence ("We only talk about our own choices."), continue, and follow up privately. Any report of teasing or bullying is handled under campus reporting procedures the same day.

When behavior gets in the way

Correct privately and briefly, with proximity and the expectation: "Do Now first, then IXL." Offer a frame instead of an explanation to a student who has not started. Do not hold a student out of the reveal or Morning Meeting to finish the Do Now, and do not use LiveSchool deductions for Level 1 behavior.

Grades K–1 · Daily teaching key

Monday November 2

Spark task: Weather pictures; private slip; optional adult check-in. Reveal: a respectful good morning.

Reveal / key: This week we practice respect and responsibility. Say good morning to someone near you, or wave.

Chant of the day (on the reveal): “Eyes up, hands still, kind words: I will!” Say it once, then the class echoes it.

Differentiate / facilitate: Privately point or circle; an adult can scribe. Do not interpret a feeling from behavior. Reveal: model a wave and a calm “good morning”; both count.

Equity stick (after 10 seconds of think time): “Show me a wave. Who can say good morning in a calm voice?” **Turn-and-talk stem:** “Good morning, ___!” (or a wave)

Ember video bridge: Breathe with your Sesame friends. Stay in your seat and breathe slowly. (Calmful Breathing Exercises)

Reflection: Draw one way you showed respect today. I showed respect when I ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Wednesday November 4

Spark task: Look closely. What do you see? Point to one clue and tell a friend what is happening.

Reveal / key: A friend is cleaning the lunch table! A clean spot is ready for the next class. That is responsible.

Chant of the day (on the reveal): “Oops, my mess? I clean, no stress!” Say it once, then the class echoes it.

Differentiate / facilitate: Accept crumbs, the sponge, the milk, or the trays as clues. After the reveal, act out wiping your own spot together.

Equity stick (after 10 seconds of think time): "What clue did you see?" **Turn-and-talk stem:** "I see ___."

Ember video bridge: Escucha cómo Mae ayuda a Elmo a calmarse después de un día difícil. Breathe with Elmo in your seat. (Mae hace sentir tranquilo a Elmo después de un día difícil)

Reflection: Draw how you helped fix a mistake or a mess. I helped fix ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Thursday November 5

Spark task: Would you rather be line leader or door holder? Both are jobs! Point to your choice.

Reveal / key: Both jobs help the class! The line leader walks safely. The door holder keeps friends safe. Responsible jobs help everyone.

Chant of the day (on the reveal): "Line leader, door holder: every job makes us bolder!" Say it once, then the class echoes it.

Differentiate / facilitate: Both answers are right. Ask: what does a good line leader do? What does a good door holder do?

Equity stick (after 10 seconds of think time): "Which job did you pick? Show me A or B." **Turn-and-talk stem:** "I pick ___."

Ember video bridge: Watch how Elmo calms his body. Try it with him in your chair. (Elmo Calms Down!)

Reflection: Draw a good choice you made in the hallway, at lunch, or at recess. At ___, I ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Friday November 6

Spark task: I wonder: why do we cheer for each other at Hallway Hollers? Show me a cheer face and a cheer move!

Reveal / key: Cheering tells a friend: I see you working hard! Today at Friday Cypher, cheer for your friends.

Chant of the day (on the reveal): "Clap, clap, cheer: my friends are here!" Say it once, then the class echoes it.

Differentiate / facilitate: Model a quiet clap and a big smile; both count. Practice one Hallway Hollers cheer before Cypher.

Equity stick (after 10 seconds of think time): "Show me your cheer move. Why do we cheer for friends?" **Turn-and-talk stem:** "We cheer because ___."

Ember video bridge: Respira con el arcoíris. Breathe in and out with the rainbow, then draw. (Respiración de Arcoíris)

Reflection: Draw a good choice a friend made this week. My friend ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Grades 2–3 · Daily teaching key

Monday November 2

Spark task: Weather pictures plus one ready move; private slip. Reveal: one respectful thing to do today.

Reveal / key: This week is about respect and responsibility. Pick one respectful thing you will do today: listen, use kind words, or keep your hands to yourself.

Chant of the day (on the reveal): “Eyes up, voice right, hands to self: respect in sight!” Say it once, then the class echoes it.

Differentiate / facilitate: Grade 2 circles pictures; grade 3 finishes the sentence. Accept listening, kind words, or safe hands.

Equity stick (after 10 seconds of think time): “What is one respectful thing you will do today?” **Turn-and-talk stem:** “Today I will ___.”

IXL codes on the slide: Grade 3: Math FLQ XR6 · Reading CXN 2K7. Grade 2 reads a book.

Ember video bridge: Watch how friends show up for each other. Then take three slow breaths in your seat. (Big Feelings: Here for Each Other)

Reflection: When did you show respect today, even when it was hard? I showed respect when ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Wednesday November 4

Spark task: Zoom in on the shoes. Where are they standing? What are these students doing right?

Reveal / key: Shoes on the blue line, voices off, hands to self. This line is ready to walk. When every person is ready, the whole class gets there faster.

Chant of the day (on the reveal): “Shoes on the line, voices off: we’re right on time!” Say it once, then the class echoes it.

Differentiate / facilitate: Grade 2 points and says; grade 3 writes two “doing right” details. Practice a 10-second silent line-up at your door.

Equity stick (after 10 seconds of think time): “Where are their shoes, and what else are they doing right?” **Turn-and-talk stem:** “Their shoes are ___ and they are ___.”

IXL codes on the slide: Grade 3: Math 7GW · Reading SVF. Grade 2 reads a book.

Ember video bridge: Breathe like a big bear: slow and strong. Stay seated, then reflect. (How to Bear Breathe)

Reflection: Write about a time you owned a choice. What did you do next? I owned it when ___. Then I ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Thursday November 5

Spark task: The LiveSchool Store is open! Would you rather spend your points on something for you, or something for the whole class? Tell why.

Reveal / key: Both can be good choices! Spending on the class shows respect for your community. Saving for yourself is responsible too. You earned those points.

Chant of the day (on the reveal): “Earned it fair, now I share!” Say it once, then the class echoes it.

Differentiate / facilitate: Grade 2 points and says; grade 3 writes a reason. Count votes, then name who each choice helps.

Equity stick (after 10 seconds of think time): “Which did you pick, and who does it help?” **Turn-and-talk stem:** “I pick ___ because it helps ___.”

IXL codes on the slide: Grade 3: Math S7G · Reading DL5. Grade 2 reads a book.

Ember video bridge: Breathe, notice your feeling, then share it on your slip. (Breathe, Feel, Share)

Reflection: Which space at school was easiest to be responsible in today? Which was hardest? Easiest: ___. Hardest: ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Friday November 6

Spark task: Wonder: what makes a cheer respectful? Make up a cheer for a classmate who worked hard this week. Do not use names.

Reveal / key: A respectful cheer lifts someone up. It is loud for the right reasons and never makes fun. Bring your cheer to Friday Cypher!

Chant of the day (on the reveal): "Lift them up, never down: best cheer in town!" Say it once, then the class echoes it.

Differentiate / facilitate: Grade 2 says the cheer; grade 3 writes it. Screen cheers for put-downs before anyone performs.

Equity stick (after 10 seconds of think time): "What is your cheer, and why is it respectful?" **Turn-and-talk stem:** "My cheer is ___. It is respectful because ___."

IXL codes on the slide: Grade 3: Math 8KJ · Reading F6X. Grade 2 reads a book.

Ember video bridge: Take a big whale breath and let it out slowly. Then write. (Whale Breath)

Reflection: Name one respectful or responsible choice you will keep doing next week. Next week I will keep ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Grades 4–5 · Daily teaching key

Monday November 2

Spark task: Energy scale 1–5; one small move; optional adult check-in. Reveal: one respectful or responsible move before lunch.

Reveal / key: This week: respect and responsibility. Your energy is information. Name one respectful or responsible move you will make before lunch.

Bar of the day (on the reveal): “I don’t have to agree to give respect for free.” Say it once, then the class echoes it.

Differentiate / facilitate: Energy is information, not a grade. Push for an observable move (“push in my chair,” “let my partner finish”).

Equity stick (after 10 seconds of think time): “What respectful or responsible move will you make before lunch?” **Turn-and-talk stem:** “Before lunch, I will ___.”

IXL codes on the slide: Grade 4: Math 5P2 QHB · Reading E9T YZB; Grade 5: Math HUJ HHN · Reading ETU RAE.

Ember video bridge: Listen to Kid President’s pep talk. Then sit back, breathe, and reflect on how you treated people today. (Kid President’s Pep Talk to Teachers and Students!)

Reflection: Describe one moment today when you disagreed respectfully, or could have. I disagreed by ___. Next time ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Wednesday November 4

Spark task: Zoom in. What kind of place is this? Use two clues. Then decide: what would you buy, and is there a choice that helps more people than just you?

Reveal / key: The LiveSchool Store, open November 4–6! Every point came from a Safe, Respectful, or Responsible choice. This student is asking about something for the whole class. Spending on your community is respect in action.

Bar of the day (on the reveal): “Points come from the choices I make, not the shortcuts I take.” Say it once, then the class echoes it.

Differentiate / facilitate: Push for a choice that helps the class. Remind students when their homeroom visits the store this week.

Equity stick (after 10 seconds of think time): “Which two clues told you where this is, and what would you buy?” **Turn-and-talk stem:** “The clues ___ and ___ tell me this is ___. I would buy ___ because ___.”

IXL codes on the slide: Grade 4: Math C9H · Reading EV2; Grade 5: Math FAA · Reading GSX.

Ember video bridge: Hear how LeBron James calms the storm before a big moment. Breathe with the practice, then reflect. (The Calm for Your Storm with LeBron James)

Reflection: Think of a mistake from today. What would owning it and fixing it look like? I could own ___ and fix it by ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Thursday November 5

Spark task: Would you rather get a shout-out at Hallway Hollers or a positive phone call home? Which would mean more to you, and why?

Reveal / key: There is no wrong answer. Some people love the crowd; others love making their family proud. Both are respect you earned with your choices.

Bar of the day (on the reveal): “Crowd or call, I earned it all.” Say it once, then the class echoes it.

Differentiate / facilitate: Accept either side with a reason. Keep family details general; no one has to share about home.

Equity stick (after 10 seconds of think time): “Which did you choose, and why would it mean more to you?” **Turn-and-talk stem:** “I would rather ___ because ___.”

IXL codes on the slide: Grade 4: Math SZJ · Reading XA7; Grade 5: Math 2L3 · Reading D83.

Ember video bridge: Follow the calm-down moves in your seat. Then let your body rest and write. (Learn How to Find Peace)

Reflection: Did you act the same in every space today? Give one example. In ___ I ___, and in ___ I ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Friday November 6

Spark task: Wonder: a cypher has unwritten rules. What are they, and how does each one show respect?

Reveal / key: Wait your turn. Hype the person on the mic. Keep it clean: no disses about family or looks. Pass the mic. Those rules are respect in action.

Bar of the day (on the reveal): “Wait my turn, hype my crew, pass the mic: respect, too.” Say it once, then the class echoes it.

Differentiate / facilitate: Collect rules on the board and carry them straight into Friday Cypher.

Equity stick (after 10 seconds of think time): “Name one cypher rule and explain how it shows respect.” **Turn-and-talk stem:** “The rule ___ shows respect because ___.”

IXL codes on the slide: Grade 4: Math PFV · Reading 5AS; Grade 5: Math 6BH · Reading BME.

Ember video bridge: One more pep talk to end the week. Breathe, then name the choice you are proud of. (A Pep Talk from Kid President to You)

Reflection: What choice from this week set a good tone for others? Explain the effect. When I ___, it helped ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student’s own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Grades 6–8 · Daily teaching key

Monday November 2

Spark task: Ready level 1–5; emotion vocabulary; one controllable action. Reveal: one choice in your control that shows respect.

Reveal / key: This week: respect and responsibility. Your starting line is yours to own. Name one choice in your control that will show respect today.

Bar of the day (on the reveal): “Same energy for everybody in the room. Respect isn’t a favor; it’s who I am.” Say it once, then the class echoes it.

Differentiate / facilitate: Keep it about the student’s own action. Accept private written answers; volunteers share.

Equity stick (after 10 seconds of think time): “What choice in your control will show respect today?” **Turn-and-talk stem:** “Today I will show respect by ___.”

IXL codes on the slide: Grade 6: Math RLZ 2HT · Reading A9H; Grade 7: Math ZFM DJ8 · Reading QQS; Grade 8: Math TYZ P5W · Reading XZG.

Ember video bridge: Hear how LeBron James trains his mind like he trains his body. Follow the breath, then reflect. (Train Your Mind with LeBron James)

Reflection: Where did tone or body language change a message today? What did you notice? I noticed ___ when ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Wednesday November 4

Spark task: Zoom in. Make a claim about what is happening. What does this one detail tell you, and what can it not tell you yet?

Reveal / key: A student is recording a younger kid. A friend steps in: "Nah. Not like that." The main office is right down the hall. Refusing to be the audience and getting an adult takes more courage than filming.

Bar of the day (on the reveal): "Camera down, step in, speak up, walk on. That's the move." Say it once, then the class echoes it.

Differentiate / facilitate: The crop shows only a phone recording. The reveal adds the younger student, the friend stepping in, and the office sign. Name "refusing to be the audience" as the responsible move.

Equity stick (after 10 seconds of think time): "What did the crop make you think, and what changed after the reveal?" **Turn-and-talk stem:** "At first I claimed ___. After the reveal, ___."

IXL codes on the slide: Grade 6: Math JSZ UKD · Reading CMA; Grade 7: Math VVS N7G · Reading VQC; Grade 8: Math DYW · Reading 2NV.

Ember video bridge: Box breathing: in, hold, out, hold. Athletes and performers use it before big moments. Stay seated, then write. (Learn

Breathing Technique Box Breathing with Dora Kamau)

Reflection: Describe a time intent and impact did not match. What would a repair include? Intent: ___. Impact: ___. Repair: ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Thursday November 5

Spark task: Would you rather drop a bar that goes viral but disrespects someone, or a bar that is respectful and only the cypher hears? Defend your choice.

Reveal / key: Views fade. Your name stays on what you say. In a real cypher, respect is earned with skill, not by tearing someone down. Both sides have a point; your reasoning matters.

Bar of the day (on the reveal): "Views fade fast; my name will last." Say it once, then the class echoes it.

Differentiate / facilitate: Push for a counterargument. Connect to today's Morning Meeting: the same standard online and in every space.

Equity stick (after 10 seconds of think time): "Which did you choose, and what is the strongest argument for the other side?" **Turn-and-talk stem:** "I would rather ___ because ___. The other side would say ___."

IXL codes on the slide: Grade 6: Math 9AF NAF · Reading D9L; Grade 7: Math ENH · Reading PJ5; Grade 8: Math BVQ · Reading AAR.

Ember video bridge: Practice doing nothing for a minute. Notice what your mind does, then reflect. (Do Nothing with LeBron James)

Reflection: Rate your standard in one space today. What one move would raise it tomorrow? In ___ I was a ___. Tomorrow I will ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate.

If a student has no real example, the morning model is enough.

Friday November 6

Spark task: Wonder: in hip-hop, respect is earned on the mic. What earns respect in a cypher, and what loses it fast?

Reveal / key: Earns it: skill, originality, hyping others, keeping it real without tearing people down. Loses it: copying someone's bars, disrespecting family, cutting someone off. Today, earn it.

Bar of the day (on the reveal): "Earn it on the mic, not by tearing down. Respect is how we run this town." Say it once, then the class echoes it.

Differentiate / facilitate: Keep examples general; no one names a classmate or an artist they want to diss.

Equity stick (after 10 seconds of think time): "What earns respect in a cypher, and what loses it?" **Turn-and-talk stem:** "Respect is earned by ___ and lost by ___."

IXL codes on the slide: Grade 6: Math KE2 · Reading 7U7; Grade 7: Math KJ8 · Reading KUB; Grade 8: Math D45 · Reading VEC.

Ember video bridge: End the week with a guided reset. Breathe or simply observe, then write your reflection. (A Guided Meditation with Naomi Osaka)

Reflection: What tone will you set next week, and where will people see it? Next week I will set the tone by ___ in ___.

Look for: a concrete, observable choice the student made or will make. Reflections stay about the student's own actions; no one names a classmate. If a student has no real example, the morning model is enough.

Media credits
